Subject: Upcoming NOVA scienceNOW Webcast
Date: May 9, 2009 4:10:40 PM HST
To: hasta <hasta-l@HAWAII.EDU>

I am writing from WGBH, the public television station that produces the science television programs NOVA and NOVA scienceNOW. (Visit online at www.pbs.org/nova/sciencenow).

We have an upcoming Webcast for middle and high school science teachers that will feature an hour with Neil deGrasse Tyson, astrophysicist and host of NOVA scienceNOW. Teachers watching will have the chance to submit questions that Neil will answer live.

This Webcast is scheduled for May 27, and we are hoping to involve as many teachers as possible. Would you and/or HaSTA be able to help us spread the news about this one-time educational event? I have pasted more information about the event below my signature, and have an html postcard available for use as well.

Best-

Ben
