---

Join us on Tuesday, June 16, for the next web seminar focusing on the Toshiba/NSTA ExploraVision Awards program. Now in its 18th year, ExploraVision encourages K–12 students of all interest, skill, and ability levels to create and explore a vision of future technology by combining their imaginations with the tools of science. This Web Seminar will touch on ExploraVision's educational value from the teacher's perspective. Presenters are ExploraVision Ambassadors, teachers who have sponsored regional and national winning teams and have had success in motivating and guiding multiple student teams this past year. Our presenters have just returned from ExploraVision Awards Weekend, and they will share their experiences with you! Some of their winning students may even be able to share their experiences with you as well!

During these live web seminars, presenters will share their ExploraVision experiences and answer questions live from participants. Register today at [http://learningcenter.nsta.org/products/symposia\\_seminars/ExploraVision/webseminar.aspx?lid=exp](http://learningcenter.nsta.org/products/symposia_seminars/ExploraVision/webseminar.aspx?lid=exp).
