February 10, 2010

Dear Mr. Redmond:

Aloha ! Last summer, I offered a course 'Biotechnology for Teachers' at UHM for the science teachers. You helped by forwarding the notification to the attention of the science teachers. I need your assistance again to bring an announcement about the summer course 'Biotechnology for Teachers' to the attention of all HSTA teachers. This is a two-credit course that will be offered from June 21 to July 2, 2010 at UH Manoa. The tuition for this course (\$564) has been waived by the instructor. However, the teachers have to pay an Administrative Fee of \$141 plus a Term Fee of \$35 (\$176 total) to the Outreach College. The registration will be limited to 10 teachers only.

Please find a copy of the syllabus and other details about the course in the attached flyer.

I will be grateful if you please forward this flyer to the HSTA teachers.

Aloha,
dulal
