**Subject: Northrop Grumman Foundation Weightless Flights of Discovery**

Below is an email from Larry Osborn who is the local representative from Northrop Grumman and coordinating this program for Northrop here in Hawaii. He will be able to answer any questions you have.

The Northrop Grumman Foundation Weightless Flights of Discovery program is looking for middle school teachers in public schools teaching in the STEM curriculum. The program consists of a seminar on August 28<sup>th</sup> and weightless flight scheduled for October 4<sup>th</sup>. Just like astronauts do during their training.

You can find lots of details and apply for this program online at: <http://www.northropgrumman.com/goweightless/> I have attached a PDF with additional details. Larry told me that they may be looking for as many as 30 teachers to participate in this program.

Larry's contact information:

Larry Osborn  
Corporate Lead Executive Honolulu  
Northrop Grumman Corporation  
737 Bishop Street  
Suite 2850 Mauka Tower
