Aloha All –

You may find value in the free GIS software and unlimited access to ESRI’s virtual campus (for teachers & students). See below.

Thanks!

Isla

Aloha Teachers!

Free online GIS courses are available to Hawai’i teachers and students!

The Women in Technology Program has partnered with ESRI and the Hawai’i Department of Education to make ESRI’s Virtual Campus courses available to Hawai’i teachers and students FREE OF CHARGE. (This training program normally costs A LOT!)

You can take these courses any time, at your own pace, online from the comfort of your own home. Attached is a handout with a suggested course sequence. All you need to do is let us know what courses you want to take and how many people will be taking them.

Additionally, we have ArcEditor 9.3.1 Student Disks – with about 200 seats left! – for any students who would like to work with GIS. Let your students know!

If you’re wondering what to do with your summer, maybe this is it?!

Keep in touch and let us know how we can help.

Warmest aloha,  
Shannon Paapanen
